Corporate Social Responsibility

Sanvika Tex understands our responsibilities towards the society we live in and the need to be a socially responsible organization. We have committed ourselves to plantation of trees, thus contributing to greener world and a better place to live in.

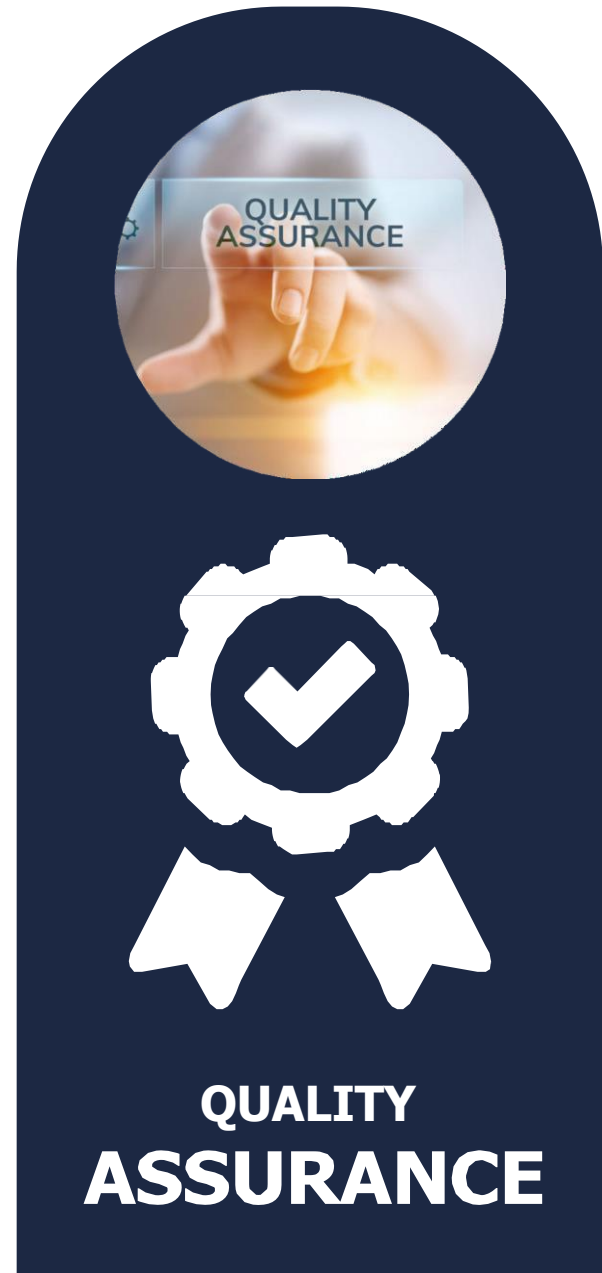

'Service to mankind is service to God'

Business and Society are indispensable from each other and we contribute to the education of 20 children living in an orphanage in Tirupur every year.

Quality Assurance

We believe quality assurance is the foundation for building a quality product. In order to achieve it we periodically train and educate our skilled workforce regarding continuing product improvement, product knowledge, customer's quality requirements, understanding the quality parameters of every style in Pre Production Meetings and regular Quality Awareness Classes. We do 100% garment inspection before finishing, ensuring that each and every product we supply meets our customer's requirement in every respect.

We follow AQL standards inhouse in all the stages of manufacturing process. We do 100% garment inspection before finishing, ensuring that each and every product we supply meets our customer's requirement in every respect.

Quality Assurance

Yarns

We handle high quality combed hosiery yarns with labels, compact yarns, organic cotton, colour melange, modal, slub yarns, griddled yarns, nappy yarns, dyed twisted yarns, poly blend cotton yarns, poly viscose, viscose, spun poly, tri blend (poly cotton rayon), denim yarns, spandex yarns, elie twisted yarn, mercerised yarn, linen, bamboo yarns, lurex yarns.

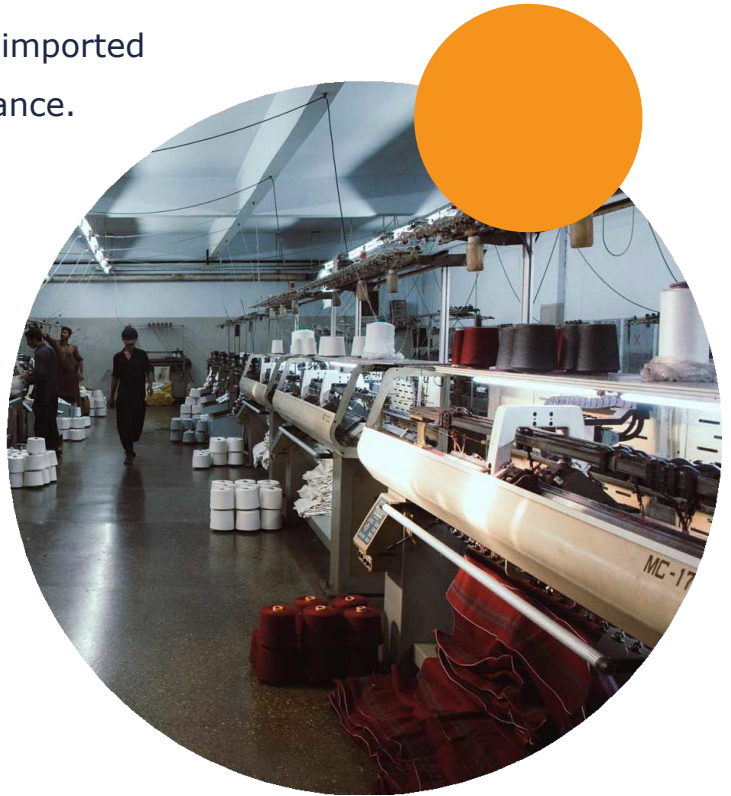

Knitting

Our knitting department is set up with 10 imported machines that offer tremendous performance.

World class machineries..

They are imported from
Germany (Terrot),
South Korea (Keumyung)

Dyeing

We have 5 Nos. of imported Soft Flow Machines.
We have the capacity to produce 2500 kgs per day.

For processing we are using dyes
with AZO-Free components.

Compacting

We have Computerized Compacting machine set in our Processing department

Cutting

Cutting is the main phase in garment making. A garment can't be made without cutting. In our firm cutting is done by the persons who are perfectly skilled and keeping in mind the FASHION FITS. We have modern hand cutter and pattern cutting machines

Embroidery

We have latest imported computerized embroidery machine that gives fine embroidery quality, details of designs and productivity. The high accuracy ZSK brand embroidery machine is imported from Germany. There are two machines in carding, boring and sequins attachment facilities. Twenty heads works in each machine

Garment Making

Modernized sewing machines with the latest features are imported and we have 350 sewing machines in two units.

Printing

Our print house comprises of two divisions, Rotary printing Division for all-over prints, and Chest printing - 4 Nos. The Rotary printing division is capable of printing 10 colours simultaneously in pigment, reactive and discharge printing.

Trimming & Checking

We have various steps involved in quality checking before a garment is packed. First one is end line checking second one is 100% visual inspection and third and final 100% measurement checking. This ensures the product is free of any defects and stains

Garment Finishing

We have garment finishing unit with vacuum pressing tables and imported all steam Iron for crease free finishing and best appearance of the garments.

We do 100% garment inspection before finishing, ensuring that each and every product we supply meets our customer's requirement in every respect
